

COME AND ASSOCIATE!

Become the best educator you can be!

Professional Development

Educators SA is involved in professional development projects that support the work of educators and Associations in South Australia through the EYLF, Australian Curriculum, SACE and the Australian Professional Standards for Teachers.

For more information about a range of professional learning options, relevant events and seminars, please see our website: www.ceasa.asn.au

For the latest Educators SA Professional Learning go to our website or Facebook page or check out the events on our members' websites.

Our services are framed by a Charter for Professional Learning based on the Australian Professional Standards for Teachers.

Professional Learning:

- Responding to Abuse and Neglect
• Moneysmart Teaching Program
• Australian Curriculum Professional Learning
• Literacy Courses
• How Language Works
• Literacy and Numeracy Forum

Educators SA - CEASA is a community of 15000 educators who are members of one of our 60 educator professional associations. Collectively we speak as the voice of educators in South Australia!

We advocate for the profession at a government and sector level, provide professional learning to member presidents and committees and a range of services to members and to the public. Educators SA is the largest provider of Responding to Abuse and Neglect training.

Developing as a professional is accelerated through membership of a professional association. This makes you more employable and is a requirement to meet the AITSL Teaching Standard 7.4.

By associating through a professional association, you grow as a professional, extend your networks and are exposed to the best thinking and practice in your curriculum interest or teaching area.

Associate now! Joining an association means learning together and contributing to your profession.
